

## GRATEFUL

I have seen the golden lights along the highway  
And I've heard the songs of all the free birds  
Never thought that this could be a little tiresome  
But it is Sometimes it is

I'm aware of all the ups and downs on my way  
But I never seem to miss the spoken word  
Though it's hard to be a man of many wishes  
I get along Along the way

Oh, I am grateful every day  
I take a bow and make my way  
I couldn't hope for anything more  
I am grateful

I have suffered from a broken heart a few times  
But I never felt the urge to give it up  
I believe that there's a reason I'm still standing  
On my two feet And keeping up

Oh, I am grateful every day  
I take a bow and make my way  
I couldn't hope for anything more  
I am grateful

I know the world may not be perfect or ideal  
It's still the only one I've got and it's for real

Oh, I am grateful every day  
I take a bow and make my way  
I couldn't hope for anything more  
I am grateful
